The MAGIX educational program
Innovative teaching • Efficient workflows • Effective learning

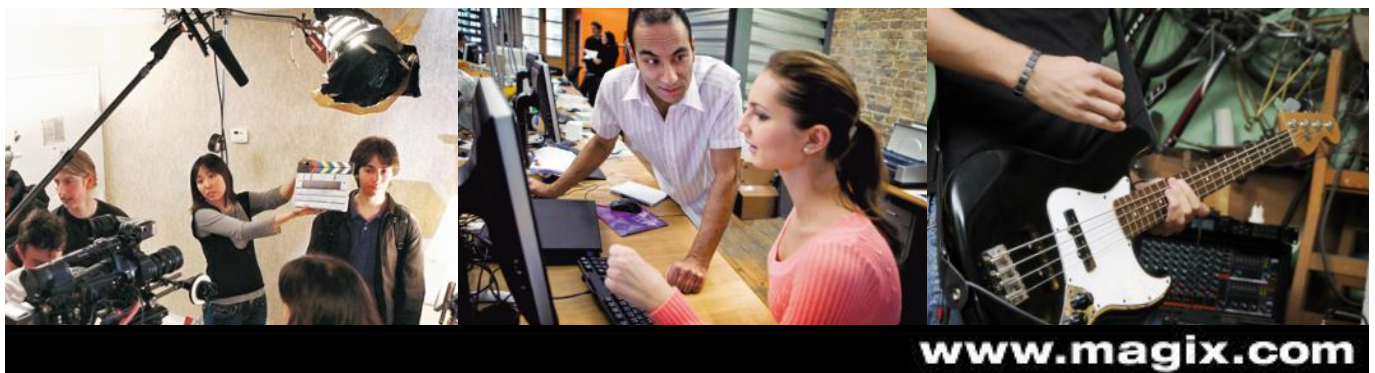

For many years, MAGIX has been actively involved in the educational field, offering training courses as well as exclusive special offers and discounts and supporting social and multimedia projects aimed at promoting the use and handling of new media among young people. MAGIX is convinced that modern technology plays a particularly important role today in helping students unleash their full potential, identify their strengths and use them effectively.

Therefore, our digital solutions not only offer teachers ideal tools for creating new class content, but also promote students' creativity and encourage them to have fun while learning.

The company

MAGIX AG is an international provider of high-quality software, online services and digital content in multimedia communication. Since 1993, MAGIX has developed state-of-the-art technology for designing, editing, and archiving digital photos, videos, and music. The online services – seamlessly integrated into the software – offer comprehensive possibilities for sharing personal multimedia files over the web or via a mobile phone.

Intuitive and user-friendly handling is essential for every product, which has in the meantime already been proven by more than 600 award wins. Measured by retail sales figures MAGIX is the market leader in the field of multimedia in Germany and in the most important European markets.

MAGIX Movie Edit Pro 17 Plus HD

is the first commercially available 3D video editing program.

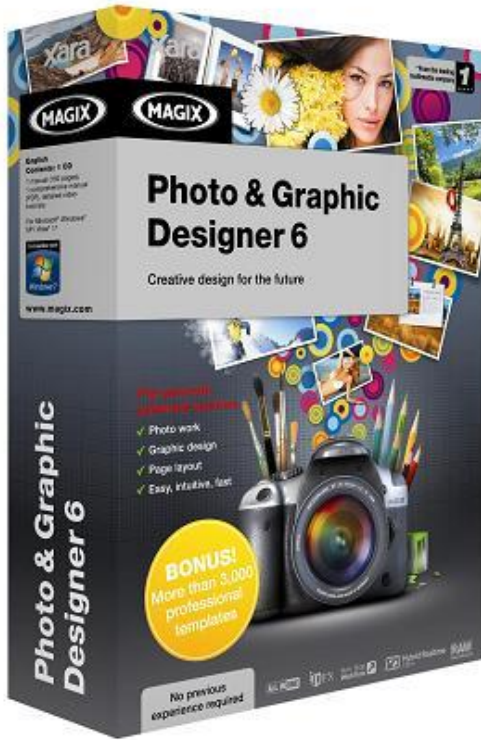

Edit your videos as usual in 2D, create breathtaking 3D movies that captivate your audience, and experience the 4th dimension of video editing: speed! With the fastest MAGIX Movie Edit Pro of all time, you will get perfect results in a flash.

More information on the individual products included in MAGIX Academic Suite 3 is available at: <http://www.magix.com/gb/partner/schools-universities/school-software/>

System requirements

For Microsoft® Windows® XP | Vista® | 7

Minimum configuration:

- Intel® Core™ Duo with 1.83 GHz, AMD® Dual-Core with 2.0 GHz, Intel® Pentium® or AMD® Athlon® 1 GHz or higher
- 1.8 GB RAM
- 5 GB free hard disk space
- Graphics card with a screen resolution of at least 1024 x 768
- Sound card (full duplex 16-bit or ASIO-enabled sound card recommended)

Minimum requirements for AVCHD/HD editing:

- Intel® Core™ 2 quad processor with 2.83 GHz (Intel® Core™ i7 recommended)
- DirectX® 9.0c compatible graphics card, 512 MB graphics card space or more and Pixelshader 2.0
- ATI X300 or higher, NVIDIA GeForce 6600 or higher
- Blu-ray burner for creating Blu-ray Discs

System requirements for 3D display

- Red/cyan glasses required for anaglyph 3D display (included).
- A special monitor is needed for viewing using polarized filter glasses.
- A 120 Hz monitor or projector as well as compatible shutter glasses and graphics card are required for shutter playback

Minimum configuration for network installations (MSI) for:

• Installation according to group policy using Active Directory:

This installation type is typical for company networks and applies to the following situations:

- there is a computer with a dedicated server operating system in your network (necessary requirement)
- the clients have individual data sets
- the computers on which you plan to install programs of MAGIX Academic Suite 3 are organized in network domains

Server:

- Operating system:
- Microsoft Windows
 - Microsoft Windows Installer 3.1
 - Microsoft Windows Server 2003

Clients:

- Operating system:
- Microsoft Windows XP Service Pack 2
 - Microsoft Windows Installer 3.1 (already included in Windows XP Service Pack 3 and higher)
 - Microsoft Visual C++ 2005 SP1 Runtime
 - Microsoft Visual C++ 2008 SP1 Runtime
 - Microsoft .NET Framework 3.5 SP1

• Installation via hard drive image:

A typical situation can be found in media centers in schools, where all "student computers" are supposed to contain identical data. Install the required programs locally on one client and use an appropriate software application to create an image of the hard disk that will be transferred to all clients.

- Operating system: Microsoft Windows XP Service Pack 2
- Storage space for all products
- Microsoft .NET Framework 3.5 SP1
