The MAGIX Educational Program

Innovative teaching • Efficient workflow • Effective learning

For many years, MAGIX has been actively engaged in educational matters, offering training courses as well as exclusive special offers and discounts and supporting social and multimedia projects aimed at promoting the use and handling of new media among young people. MAGIX is convinced that today's modern technology plays a particularly important role in helping students unleash their full potential, identify their strengths and use them effectively.

Therefore, our digital solutions not only offer teachers ideal tools for creating new class content, but also promote the creativity of pupils and students and encourage them to have fun while learning.

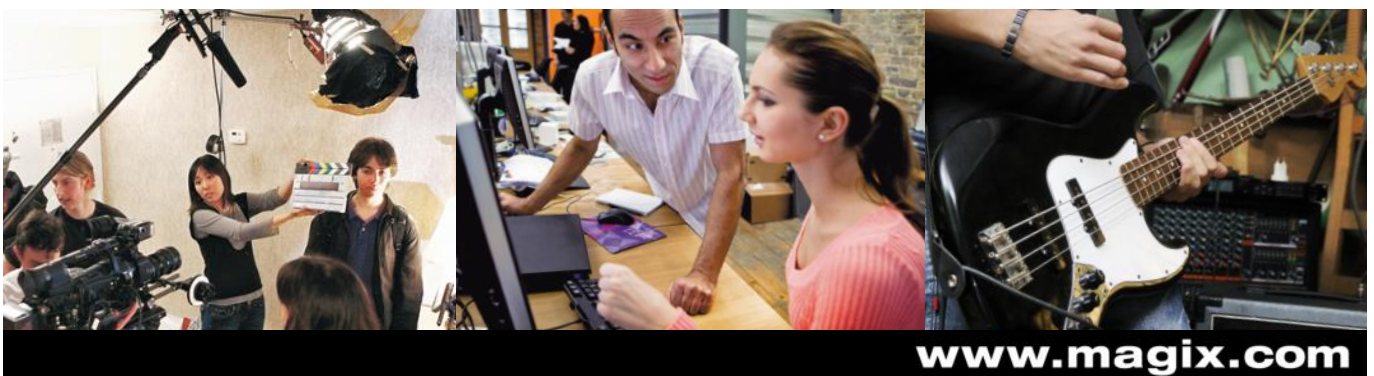

The company

MAGIX AG is an international provider of high-quality software, online services and digital content in multimedia communication. Since 1993, MAGIX has developed state-of-the-art technology for designing, editing, and archiving digital photos, videos, and music.

The online services – seamlessly integrated into the software – offer comprehensive possibilities for sharing personal multimedia files over the web or via mobile devices.

Intuitive and user-friendly handling is essential for every product, which has in the meantime already been proven by more than 600 award wins.

Measured by retail sales figures, MAGIX is the market leader in the field of multimedia in Germany and in the most important European markets.

MAGIX Video Pro X3

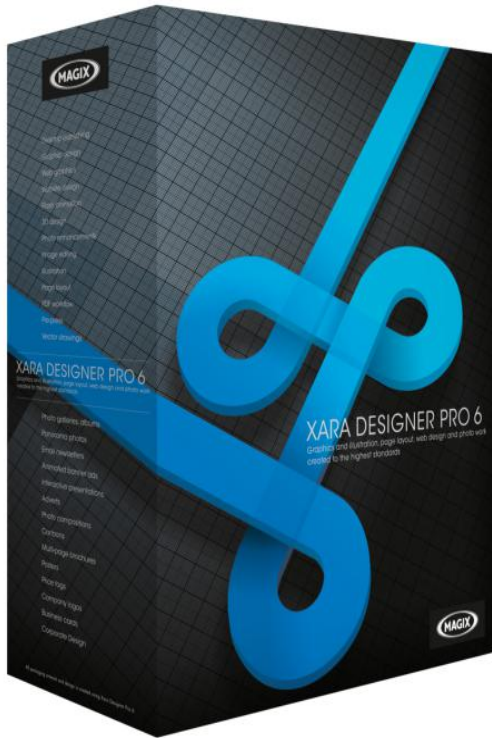

MAGIX Video Pro X3 is a video editing solution geared towards the unique requirements of ambitious and professional users. The multi-award-winning editing suite features an unrivaled range of powerful tools for detailed video and audio editing. Improved layout and performance guarantee an effective workflow. Innovative functions that are the accumulation of years of expert experience in software development combine to ensure professional results in perfect sound and vision.

- Creates real surround sound with **Dolby® Digital 5.1 Surround Sound**
- Offers **MultiCam-Editing** for sample-precise **audio editing** and efficient **3-point cut**
- Imports **XDCAM files**, MAGIX Video deluxe project files and **all other important media formats**
- Exports to **AVCHD** and **Blu-ray disc™**
- **Supports external video and audio plug-in**

MAGIX Video Pro X3 – Examples of use:

- Create **video reports about school trips/excursions**
- Cut and dub video **recordings of classroom experiments**
- Cut and edit **audition videos** for school bands
- Design, edit and record **video presentations for lectures** and post them online

Xara Designer Pro 6

Xara Designer Pro 6 is the world's fastest and all-round design solution that is geared towards the unique requirements of ambitious and professional users. The multiple award-winning software seamlessly combines all design-relevant functional areas into one clearly laid-out program interface for an optimal workflow. You can create everything in a single, clearly laid-out program window: From a first quick layout draft and convenient text and image editing for complex brochures to complete, ready-to-print templates.

- Completely **object-oriented, vector-based & selective image editing technology**
- **Interactive presentations** as PDF or website (incl. 500 MB free web space)
- **Selective optimization:** Brighten precisely defined areas, design stages of effects gradients
- Optimize all or selected photos of a project
- Easy handling using **touch-sensitive graphics tablets** and **touch screens** (Windows® 7)

Xara Designer Pro 6 – Examples of use:

- Create multi-page **catalogues & leaflets** with photos, illustrations and text
- Design **professional online presentation** (with interactive websites)
- Arrange **advertising banners** for web 2.0 affiliates, networks or your own eBay shop (with animated GIF, Flash™ video, etc.)
- Become more successful in e-business using **sales-promoting media**

Samplitude® 11.5 Producer

Samplitude® 11.5 Producer is the comprehensive complete solution for musicians and bands. This product offers everything in one package: From recording and adding effects, mixing down and editing to mastering and burning in Red Book format, the official label and press standard.

- Offers **numerous extras** for producing music on the PC: MIDI editor, mixer, audio editing, software instruments, professional effects, VST, ReWire and much more
- Enables **auto accompaniment** when recording vocals or instruments
- Provides **improved workspaces** for single and multiple track recordings, editing and mastering
- Supplies mix down with **up to 64 channels, real studio effects** and improved **FX rack**
- Includes special Vita Solo instruments: get the **"Vita Century Keys"** piano collection, the **"Vita Saxophonia"** saxophone sound and the generic **"Vita Jazz Drums"**

Samplitude® 11.5 Producer – Examples of use:

- **Music classes at school or university:** useful for introducing pupils/students to the practical realities of producing music
- **High school and college radio stations** (for producing programs, podcasts, etc.)
- Organization of **project weeks/lectures:** introduction of music production topics and how to make music with virtual instruments
- Record rehearsals/performances of **school and college bands and choirs**

System requirements

For Microsoft® Windows® XP | Vista® | 7 (32-bit versions)

Minimum configuration:

- Intel® Pentium® IV or AMD® Athlon® processor 2 GHz or higher
- 1 GB RAM
- 4.2 GB free hard disk space
- Graphics card with min. 32 MB RAM, min. resolution 1024 x 600 at 16-bit high-color
- Sound card (full duplex 16-bit or ASIO-enabled sound card recommended)
- DVD drive for program installation
- Microsoft®-compatible mouse
- MAGIX Video Pro X3 must be registered online or activated by telephone within 30 days of installation. MP3 export requires Windows Media installation version 10 or higher

Network-enabled program installation is supported (MSI)

Minimum configuration for network installations (MSI) for:

• Installation according to group policy using Active Directory:

This installation type is typical for company networks and applies to the following situations:

- there is a computer with a dedicated server operating system in your network (necessary requirement)
- the clients have individual data sets
- the computers on which you plan to install programs of MAGIX Academic Suite 3 are organized in network domains

Server:

- Operating system:
- Microsoft Windows
 - Microsoft Windows Installer 3.1
 - Microsoft Windows Server 2003

Clients:

- Operating system:
- Microsoft Windows XP Service Pack 2
 - Microsoft Windows Installer 3.1 (already included in Windows XP Service Pack 3 and higher)
 - Microsoft Visual C++ 2005 SP1 Runtime
 - Microsoft Visual C++ 2008 SP1 Runtime
 - Microsoft .NET Framework 3.5 SP1

• Installation via hard drive image:

A typical situation can be found in media centers in schools, where all "student computers" are supposed to contain identical data. Install the required programs locally on one client and use an appropriate software application to create an image of the hard disk that will be transferred to all clients.

- Operating system: Microsoft Windows XP Service Pack 2
- Storage space for all products
- Microsoft .NET Framework 3.5 SP1

* Refers to the number of retail software products sold according to monthly analysis by Media Control Germany (Basis: media control panel) (PC/CD-ROM non-games Germany according to VUD criteria); GfK charts Netherlands, Belgium, France, Spain, Italy; Chart Track UK; NPD Data Charts PC/CD-ROM non-games US. November 2009 to December 2010.
