

## MAGIX Photo Manager MX: All the features at a glance

### Enhance & Optimize

Rotate, optimize and crop individual pictures or a complete image series.

1-click optimization for auto brightness and color, brightness (light, shadows, mid tones, selective) contrast, saturation, color temperature, white balance, black/white, sepia, colorize, focus, horizontal straightening, start/end points for video clips

Automatic red-eye correction (even for complete photo folders)

1-click correction of "curved lines" (ideal for optimizing pictures of architecture)

**NEW!** Combine up to eight individual photos into one great panorama (includes automatic focal distance recognition and correction of distortions and perspectives)

Save presets for camera models and lighting conditions

Originals remain unchanged if desired (non-destructive)

Detailed image editing (e.g. correction of scratches and stains) with the integrated photo editing tool

### View & Present

Photos and video clips from your hard drive, digital compact and SLR cameras, camera phones, memory cards, scanners, CDs/DVDs, USB devices, and much more.

Includes file browser, media player, and fullscreen display (photo, video, audio)

Automatic image sharpening while viewing (optional)

**NEW!** Travel route animation with online maps now even easier to use with animated display and freely customizable travel routes

Interactive presentation mode including pan & zooms, playback and a mouse-controlled "laser pointer"

**NEW!** Enhanced display of slideshows as video files (incl. 8 styles e.g. for zooms)

Upload to the MAGIX Online World and post them on YouTube®, Facebook und Flickr®

Free Online Album with even more presentation options

**NEW!** MAGIX Online Album *mobile* app for iPhone and devices with Android®-Technology

Convert and export as videos, screensavers, photo emails, and much more

Photo printing for standard image formats, image series, posters, and postcard puzzles

Includes MAGIX Xtreme Print Center with templates for CD/DVD covers & labels

Direct link to the Online Print Service for photo prints, photo calendars & gifts

Export to digital picture frames and mobile media devices

## Organize & Manage

Clear database with numerous sorting options, individual albums, categories and ratings, calendar structure, new images, and much more

Automatic categorization according to image content (e.g. night, sunset)

Pick out the best photos: Wizard for quickly finding and compiling the best shots

Recognize faces and assign them to people

Find duplicate and similar photos

Search according to metadata (EXIF content, keywords, and image notes in JPG files)

Universal renaming and copying options

Access folders directly on home networks (e.g. via WLAN) – convenient for family use

## Protect & Archive

Create backup copies of photos, videos, database and meta data  
(on a hard drive, storage device or DVD including automation)

Restore deleted images and videos (database history)

Password protection against unauthorized access for confidential photo folders

Burns CDs/DVDs for files, albums, databanks and PC slideshows with autostart function
