Restore photos

Get old pictures into shape and let them shine with a new light. Small tears, wrinkles or faded colors can be fixed with just a few clicks.

NEW! Selective lightening

Similar to classic dodging, you can use the **"lightening" function** to expose and enhance selected areas of your photo. Correcting dark areas or hard shadows in your photos is just as easy.

Photo caricatures

Use the "liquid paint" function to magically create funny caricatures with a few clicks. Give cranky colleagues big ears, have a friend sport a beer belly, or have your boss look out from a frame with droopy eyes.

Artistic filters

With over **60 creative effect filters**, you can turn your everyday photos into impressive works of art (e.g. pastel shades, newspaper print, relief design, chalk, soft focus lens, distortion, shadow, histogram and much more).
